

Keytouch Trackball

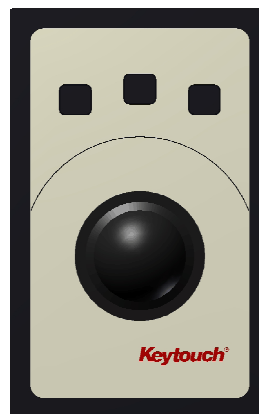

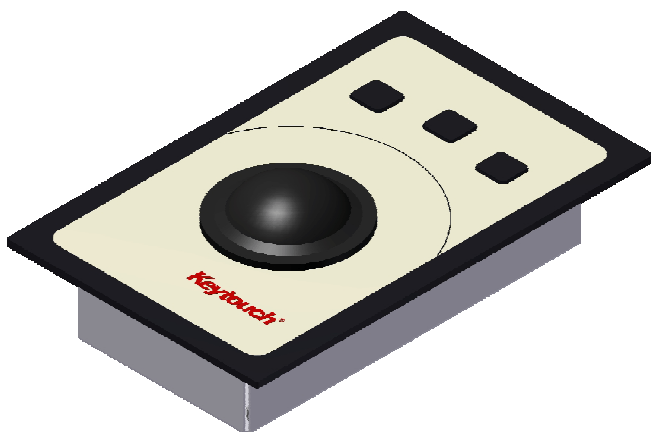

The Keytouch trackball has been developed to meet the specific needs and demands of the maritime market.

The trackball unit is a three button device that incorporates a 50mm laser trackball whose operation is unaffected by the introduction of outside contaminants.

It is suitable as a stand alone unit or can be utilized with the other Keytouch units. The Keytouch trackball provides a distinct tactile feel.

The Keytouch trackball can be adapted to meet individual OEM customer color, logo and design requirements.
